

Certification for Appreciative Inquiry Practitioners and Consultants

The Certification for Appreciative Inquiry Practitioners and Consultants (CAIPC) is a global and comprehensive program covers the essential skills and knowledge required for Appreciative Inquiry (AI) practice in different settings. The credential provides AI practitioners the ability to prove their competencies to their clients and to be confident in applying AI in their field of expertise.

Mission

The certification aims at enabling AI practitioners to:

- Demonstrate their capacity of customizing and implementing AI-based solutions to diverse target clients
- Integrate AI into their field of expertise with AI principles embedded in their practice
- Measure impact and demonstrate concrete result of their solutions
- Build solid cases of their AI practice and consulting experience

Target participants

External and internal change agents, management and executives, HR and OD professionals, consultants, facilitators, trainers, and coaches

Top Reasons to become a CPC CAIPC

- Learn from actual cases how to apply AI to initiatives of any size, length and complexity
- Structure and develop results-focused processes to “back-home” engagements
- Refine skills in a pragmatic, practitioner-oriented environment, facilitated by highly seasoned, pioneering consultants
- Self-paced program, with global options for participation
- To be listed on the Corporation for Positive Change (CPC) website (www.positivechange.org) and join an international community of experienced AI practitioners, enabling sharing and support, exploration of new frontiers, and exchange of resources
- Enjoy special discounts on CPC global and local programs and events
- Attend exclusive events and programs on advanced practice
- More benefits are to be offered by CPC and our international centers!

Uniqueness of the Program

- Highly hands-on and practical – All graduates are required to fulfill both coursework and practicum requirements to put their learning into practice
- Flexible streams of practice such as organization development, consulting, coaching, organizational learning, people development, human resources management, community development
- Learn under the guidance of the global CPC faculty members who are thought-leaders and experts in the field
- Language options are available for coursework delivered by international centers

Requirements

To earn the CAIPC credential, candidates must meet all coursework and practicum requirements:

Part 1 – Coursework

1. Core

- The Power of Appreciative Inquiry (formerly Foundations of AI)
- Appreciative Inquiry Summit OR Applications of Appreciative Inquiry
- Appreciative Leadership Development Program[®] (ALDP[®])

2. Electives

- Accumulate at least 4 credits through attending CPC approved programs offered by centers (1-day workshop = 2 credits)*
- Appreciative Inquiry Summit OR Applications of Appreciative Inquiry
 - Appreciative Coaching
 - and more to come

Part 2 – Practicum, One-on-one Mentoring & Application Paper

Stage 1

- Receive guidance of a CPC faculty member with minimum three one-hour mentoring sessions
- Design and implement two Appreciative Inquiry-based projects. Each project should involve delivery time of minimum 7 hours (e.g. an AI summit, application of AI as the framework for multiple coaching sessions with a client, a workshop, a consulting project). Applicable projects are to be approved by the Mentor.
- Submit an Application Paper (5-10 pages) to the Mentor within one year upon completing the final CPC coursework. The paper should include:
 1. Details of the two projects:
 - Client engagement – introducing Appreciative Inquiry to sponsors
 - Major stakeholders of the projects and their concerns
 - Program objectives
 - Program design and delivery
 - A summary of results and impacts made to the clients
 - Supplementary documents, including:
 - Appreciative Interview Guide(s)
 - Program result measurement (e.g. participant feedback form, feedback and testimonials from clients and participants, a summary of a post-program appreciative interview with a client)
 2. Reflection:
 - How were AI principles embedded in your practice
 - Opportunities and challenges encountered – how did you address them
 - Personal strengths demonstrated throughout the process
 - The way forward – Reflection on personal learning and future practice

Stage 2

- Mentor submits the Application Paper to get endorsement of the Certification Advisory Board
- The candidate shares the final Application Paper at one of a CPC virtual, local or global events, with a maximum 15-minute presentation and 30-minute Q&As from the participants and a CPC Faculty Panel

Recertification

To CAIPC credential is valid for 3 years. To recertify, CPAIPCs are required to:

- Accumulate 6 credits of Continuous Education Credits (CECs), e.g.:
 - Attend at least ONE regional or online CPC education event (2 credit for a 2-hour event)
 - Attend CPC endorsed workshops (e.g. 4 credits for a 1-day workshop)
 - Receive one-on-one shadow consulting or coaching with a CPC faculty member on a project (e.g. 1 credit for an one-hour session)
- Share success stories or testimonials on AI projects and applications
- Complete a 1-page renewal form to record CECs and success stories
