Heightened creativity?
Aligned action around a shared vision?

“The Power of Appreciative Inquiry” is your pathway to better results!

Appreciative Inquiry (AI) is a strengths-based process for building teamwork, trust and collaboration, enhancing employee engagement, generating a spirit of creativity and innovation, and ensuring results oriented commitment to a shared mission, vision and strategy. It is a proven methodology for leading positive change in business, non-profits, health care, education, military, athletic, community, religious, and government organizations.

This workshop (formerly known as the Foundations of Appreciative Inquiry) is the first step in learning to use Appreciative Inquiry to make a positive difference. It will help you:

- ✓ Transform conversations from complaints to commitments;
- ✓ Create an emotionally positive, life affirming organization culture and leadership style;
- ✓ Ensure success of technical change by engaging people from the start;
- ✓ Establish processes for collaboration and process improvement;
- ✓ Create a culture of service excellence and partnership with customers and clients;
- ✓ Engage multiple stakeholders in strategic planning and transformation.

In this 3-day highly experiential workshop you will learn both the principles and practices of Appreciative Inquiry. You will learn how to: form a core team, articulate a change agenda, select affirmative topics, mobilize appreciative interviews, envision and enact positive futures, and support innovation teams to deliver on the promise of your change agenda.
